👤 PROFILE

Results-oriented Software Engineer specializing in front-end development, back-end development, API integration, and scalable software solutions. Passionate about developing robust web solutions, optimizing software performance, and leveraging modern development frameworks to streamline operations and enhance user experience. Proven ability to contribute to organizational goals and business growth through strong problem-solving skills and a commitment to leveraging AI-driven insights.

📁 PROFESSIONAL EXPERIENCE

- Software Engineer** 06/2023 – Present
Devsaar IT Solutions  Lahore, Pakistan
- Built and maintained MERN & Next.js web apps with API integrations and responsive UI, using tools like StarUML, Postman, Git, and Trello for efficient development and collaboration.
- MERN Stack Trainer** Lahore, Pakistan
Skilovate 
- Led a 10-week MERN Stack course, guiding students in full-stack app development with real-world projects, best practices, and collaborative workflows.
- Software Development Intern** Lahore, Pakistan
Devsaar IT Solutions 
- Maintained and enhanced iOS apps using Swift/SwiftUI, integrating new modules and ensuring smooth PHP-SQL backend communication with client-driven updates.

🎓 EDUCATION

- FAST National University of Computer and Emerging Sciences**  2021 – 2025
Bachelor's of Computer Science Lahore, Pakistan

📁 PROJECTS

- FYP - SecuSight: AI Powered Anomaly Detection**
- Developed an AI-driven threat detection system using Wazuh and ELK Stack with ML-based anomaly detection and real-time alerting for proactive cybersecurity.
- University Management System** 
- Built a web-based academic system with Admin control, enabling real-time course, attendance, and performance management for instructors and students.

📄 CERTIFICATES

- MEAN & MERN Full Stack Web Development Course**  (PNY Trainings, Arfa Karim Tower, 2022)

🧠 SKILLS
